Lunch and snacks provided each day

BILL TEALE

is author of over 150 professional publications. His work has focused on early literacy learning, the intersection of technology and literacy education, and children's literature.

KELLIE YATES

is the STEM Liaison and Outreach Specialist at the STEM Action Center. She is a passionate believer in STEM education and advancing STEM education in Utah.

KIP MOTTA

is a public speaker utilizing motivational, educational, and leadership skills to develop a desire in students and teachers to become positive and productive role models, parents, and employees.

JUSTIN OSMOND

grew up with a 90% hearing loss in a family famous for singing. The story of how he overcame many challenges will help teachers realize the potential of their students.

LYN FORD

is a performer at regional and national storytelling festivals.

Her first book,

Affrilachian Tales is a compilation of stories from Lyn's childhood memories, enriched with information on Affrilachian culture.

Visiting AUTHORS

GARY HOGG

is the author of more than twenty hilarious books. Gary says his fourth grade teacher inspired him to put his wild ideas into stories instead of acting them out in class. She kept her sanity and he became a writer.
